

The spare parts numbers are taken from an older (2014?) version of FIAT's ePER spare parts catalogue and Magneti Marelli's 2020 catalogue. For some components, the specified numbers between Magneti Marelli and ePer do not match. This is either because the numbers have changed over time or because of direct errors. Reservation for misspellings.

¹ e/M defines if the information originates from FIAT ePER catalogue (e) or Magneti Marelli catalogue (M)

² Mismatch between Magneti Marelli and ePer. The FIAT-number provided by MM uppper, 71775261, is another component in ePer

³ Corresponds to ePer part number but Magneti Marelli catalogue does not list Ducato as matching car model

⁴ Incorrect info in ePer. The number provided seems to be for another component

⁵ The Robot has two of these.

4. Clutch fluid reservoir and master-slave system for clutch
